EXPERIENCE

Full Stack Developer

Gravity Global Viet Nam 04/2025 - Present Nha Trang, Vietnam

Role: Full-stack

Front-end: HTML, CSS, Tailwindcss, SCSS, Javascript

Back-end: Wordpress, PHP

Responsibilities:

- Develop frontend modules or web pages based on Figma designs, ensuring pixel-perfect accuracy, proper typography, and precise layout implementation.
- Implement backend functionality using PHP to dynamically display content entered by the admin in WordPress.
- Work collaboratively with the Quality Control team through Jira to identify and resolve bugs and address any design inconsistencies.

Web Developer

Tập Đoàn Công Nghệ VK 03/2024 - 03/2025 Nha Trang, Vietnam

Vchatshop

Live: <https://vchatshop.vn>

Description: VChatShop is a Vietnamese e-commerce platform offering diverse products, including fashion, electronics, and beauty items. It features frequent flash sales and discounts. The user-friendly site supports brand partnerships and allows users to manage their own stores, with a focus on customer satisfaction through secure payment options and responsive support.

Role: Full-stack

Front-end: HTML, CSS, Javascript, JQuery, Bootstrap

Back-end: Laravel, PHP, MySQL

Responsibilities:

- Achieved a 76.67% increase in search speed, enhancing user efficiency.
- Partner with the accounting team to manage and analyze large datasets, including over 1,000 orders for tax reporting.
- Collaborate with designers to implement new features, focusing on responsiveness and user experience.
- Collaborate with Viettel Post and Nhat Tin Express to integrate their services into the e-commerce platform, enhancing logistics capabilities.
- Ensure code quality by adhering to best practices and coding standards.
- Work with mobile developers to integrate new APIs effectively.
- Quickly identify and resolve bugs and errors to maintain smooth operations.
- Update and optimize existing features for enhanced performance.
- Translate the website content between English and Vietnamese to support bilingual accessibility.

Tapdoanvk

Live: <https://tapdoanvk.com>

Description: Corporate website for Tập Đoàn Công Nghệ VK.

Role: Front-end

Front-end: Angular, SCSS, Bootstrap

Responsibilities:

- Partnered with designer to develop and launch a fully responsive website with comprehensive SEO optimization.
- Integrated AOS animations and a lazy loading module to improve user experience.
- Implemented EmailJS for managing contact forms and recruitment submissions.
- Leveraged the Google Sheets API for seamless recruitment data storage and updates.
- Built search, tag-based filtering, and pagination features for recruitment listings.
- Translate the website content between English and Vietnamese to support bilingual accessibility.

Front-end Developer Intern

Geek Up 02/2022 - 04/2022 Ho Chi Minh City, Vietnam

Description: Create an internal web app for the company.

Role: Front-end

Front-end: ReactJS, Less, Ant Design

Responsibilities:

- Followed the Scrum process to gather and analyze information from users and business stakeholders.
- Collaborated with the design team to create UI/UX interfaces from scratch using Figma and Draw.io.
- Documented user pain points, use cases, flows, and feature lists in English.
- Developed a web application based on user and business requirements using ReactJS, Less, Ant Design, and ChartJS.
- Worked closely with the back-end team to ensure seamless front-end and back-end integration, contributing to the project's overall success.

ABOUT ME

- I am a full-stack developer with over a year of hands-on experience in creating responsive and user-friendly web applications.
- My analytical mindset allows me to approach problems with a logical perspective, ensuring efficient solutions and high-quality code.
- As a perfectionist, I pay close attention to details in user interface design and constantly analyze user behavior to enhance user experience.
- I am open-minded to learning new technologies and am eager to grow in this dynamic field.

EDUCATION

Bachelor of Software Engineering

FPT University

2019 - 2023 Ho Chi Minh City, Vietnam

- I developed strong English skills during my 4 years at FPT University, using the language extensively for exams, presentations, and technical documentation.
- I am proficient in writing clear, detailed reports and reading complex materials in English, making me well-prepared for handling written communication in a professional setting.

IELTS 5.5

British Council

2019 Nha Trang, Vietnam

- Proficient in reading and writing technical documentation.
- Skilled in speaking, active listening, and note-taking during client discussions.

SKILLS

Frontend

HTML, CSS, SCSS/SASS, LESS, TailwindCSS, Javascript, Typescript, jQuery, Bootstrap, ReactJS, Angular, NextJS, Ant Design, Angular Material, MUI, Shadcn/ui

Backend

PHP, Laravel, Wordpress, Java, C#, MySQL, SQL Server

Dev tool

Figma, Postman, Git, Git Hub, Git Lab, Unity

EXPERIENCE

FOUNDER / FULL-STACK DEVELOPER

StatUpBody – Fitness-RPG Startup Location

(StatUpBody is self-funded; I currently lead product, codebase, and growth strategy.)

Site: <https://statupbody.com>

Store: <https://shopee.vn/statupbody>

Front-end: NextJS

Back-end: NestJS

Responsibilities:

- **Built the product end-to-end:** architected REST/GraphQL APIs in NestJS and a responsive Next.js UI with pixel-art theming and RPG HUD elements.
- **Developed a real-time chart** that displays weight, body-fat, strength and streak XP;
- **Implemented Daily Log & Streak logic** so users instantly see what they accomplished each day.
- **Designed future-ready modules:** community posts, coin-reward wallet, and Fight-a-Monster mini-game unlocked after each workout.
- **Integrated Shopee API** to auto-sync product stock, orders, and customer reviews;
- **Handled everything from DevOps to copywriting:** CI/CD on Vercel, PostgreSQL migrations, bilingual (EN/VI) content, GDPR-style privacy flow.
